|  First Clinic Ospedale San Raffaele | PREPARATION: STOOL COLLECTION FOR AEROMONAS AND PLESIOMONAS | cod. S 01 date 11/04/2024 rev. 3 |
|--|---|---|

Dear Madam(s),

Please be advised that it is important to follow the instructions below to perform this test.

PREPARATION FOR TEST

Things to do:

- a) 1 x clean container to collect feces so that sampling can be done.
- b) 1 x special container for stool collection available from the pharmacy.

STOOL SAMPLING

Deliver 1 container

The sample should be collected in the morning:

- a) Take a small amount of feces collected in the container (a), filling the scoop completely, and insert it into the container (b)
- b) Close the container tightly.

SAMPLE STORAGE AND DELIVERY

The specimen should be kept refrigerated and delivered within 2 hours after collection to the Collection Center during open hours.

The sample must be accompanied by the medical request.
