

 <p>RAF First Clinic Ospedale San Raffaele</p>	<p>PREPARATION: STOOL COLLECTION FOR STRONGYLOIDES STERCORALIS TEST</p>	<p>cod. S 08 date 11/04/2024 rev. 3</p>
---	--	--

Dear Sir/Madam,

Please be advised that it is important to follow the instructions below to perform this test.

PREPARATION FOR TEST

Things to do:

- a) 1 x clean container to collect feces so that sampling can be done.
- b) 1 x 100 mL container available from a pharmacy (normally used for urine collection).

STOOL SAMPLING

1. Collect feces to the container (a), taking care not to contaminate with urine or menstrual blood.
2. Unscrew the cap of the container (b), take a minimum amount of feces equal to the volume of about 50 mL, allowing the container to be half filled.
3. Close the container tightly.

SAMPLE STORAGE AND DELIVERY

The sample should be collected in the morning, stored in the refrigerator and delivered to the Collection Center during opening hours within 2-4 hours after collection.

The sample must be accompanied by the medical request.
