

Dear Sir,

Please be advised that it is important to follow the instructions below to perform this test.

PREPARATION FOR COLLECTION

- Use a sterile container available from a pharmacy.
- If tests are also to be performed on urine it should be collected before seminal fluid.

1. wash your hands
2. wash the genitals thoroughly after retracting the foreskin over the glans and rinsing them
3. open the container without touching its interior or lid with your hands
4. collect the seminal fluid in the container.

SAMPLE DELIVERY

The sample should not be kept refrigerated and must be received during the opening hours of the Sampling Room.
